PROFILE

Motivated and enthusiastic Computer Science student at KNUST with a solid background in software development, web projects, motion detection technologies, cybersecurity, AI, and game development. Experienced in creating games using Unity/Godot, developing motion detection applications with OpenCV, and building full-stack web and mobile applications. Technical skill set includes Python, C#, C++, Java, JavaScript, and HTML/CSS.

EDUCATION

BSc. Computer Science (Expected November 2027), Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

W.A.S.S.C.E – General Science, Akosombo International School, Akosombo, Ghana | *Mar 2021 – Sep 2023*

CERTIFICATIONS

Google Cybersecurity Professional Certificate (v.2) — Google / Coursera | *Mar 2026*

AI 150 – Fundamentals of Responsible Artificial Intelligence for All — KNUST AI Courses Coordinating Office | *Jan 2026* | Credential ID: gJdaxeNaC1

Cloud Computing Fundamentals — IBM | *Jan 2026*

Cybersecurity Fundamentals — IBM | *Feb 2026*

Accelerate Your Job Search with AI — Google | *Mar 2026* | Credential ID: 3UNIMGQGZYO4

Put It to Work: Prepare for Cybersecurity Jobs — Google | *Mar 2026* | Credential ID: HUO4YMJXABME

Automate Cybersecurity Tasks with Python — Google | *Mar 2026* | Credential ID: IFHYXR3GIU3U

Sound the Alarm: Detection and Response — Google | *Jan 2026* | Credential ID: 1QD4U6Z1OC59

Assets, Threats, and Vulnerabilities — Google | *Jan 2026* | Credential ID: ZAJ6IBSD052H

Tools of the Trade: Linux and SQL — Google | *Jan 2026* | Credential ID: EHF6SGAKB3RJ

Connect and Protect: Networks and Network Security — Google | *Dec 2025* | Credential ID: 5VNR1VW3H7AP

Play It Safe: Manage Security Risks — Google | *Dec 2025* | Credential ID: T6X9DEM6102K

Foundations of Cybersecurity — Google | *Dec 2025* | Credential ID: V64VJW4KGJX6

WORK EXPERIENCE

Intern – AI Recruitment System Developer (Angular), Enterprise Computing Limited (ECL), Tema, Accra | *Sep 2025 – Oct 2025*

- Developed a web-based AI-powered recruitment tracking and evaluation system using Angular as part of the front-end stack.
- Integrated OCR and AI tools to intelligently analyse resumes, rank candidates, and automate the evaluation process.
- Designed and optimised the HR Management Console enabling job posting management, candidate tracking, and AI-based scoring dashboards.

Intern – Junior Full Stack Developer / Tech Assistant, Enterprise Computing Limited (ECL), Tema, Accra | *Apr 2025 – May 2025*

- Built a web application delivery management system using HTML, CSS, and Python Django to streamline order processing, tracking, and user management.

Technical Assistant, UK Chemicals Company Ltd, Kumasi, Ghana | *Jan 2019 – Sep 2023*

- Escalated equipment repair issues and sourced parts required to restore function.
- Promoted value for money through responsible procurement and cost-saving measures.
- Designed Excel spreadsheets to capture and display operational data accurately.
- Updated computer systems with issues and maintenance logs for accurate reporting.
- Developed and implemented an Inventory Tracking and Management System for UK Chemicals Company Ltd to improve stock monitoring and reporting.

Sales Associate, Boscov's Department Store, Woodbridge, New Jersey

- Greeted customers and responded promptly to their needs.
- Operated cash register for cash, check, and credit card transactions.

PROJECTS & RESEARCH

Point of Sale (POS) System | *In Progress*

- Currently developing a POS system to manage sales transactions, inventory, and reporting for retail operations.

Inventory Tracking System, AMANABI Enterprises

- Designed and developed an inventory tracking system to monitor stock levels, manage procurement, and generate reports for AMANABI Enterprises.

Recruitment Tracking and Evaluation System, Enterprise Computing Limited (ECL) | *Sep 2025 – Oct 2025*

- Built an AI-powered recruitment platform that bridges job seekers and employers by intelligently analysing resumes, ranking candidates, and automating evaluations.

Tracker 78 – Human Tracking Mobile Application | *Apr 2025 – Jul 2025*

- Developed a React Native mobile app enabling users to monitor and share real-time location data.
- Built the backend with Node.js; integrated services in Java for real-time data handling and cross-platform mobile design.

To-Do List Application (HCI Concepts)

- Developed a task management application applying Human-Computer Interaction (HCI) principles to deliver an intuitive and accessible user interface.

Web Application – Delivery Management System, Enterprise Computing Limited (ECL) | *Apr 2025 – May 2025*

- Built a Django-based delivery management system covering order processing, tracking, and user management during internship at ECL.

Motion Detection Security System | *Mar 2025 – Apr 2025*

- Developed a motion detection security system using Python and OpenCV to identify and track movement using vector projection.

Maze-Solving Game | *Nov 2024 – Jan 2025*

- Designed and built an interactive maze-solving game using the Godot game engine with increasingly complex puzzles, focusing on game design and UX optimisation.

LEADERSHIP EXPERIENCE

Group Lead – Student Development Team, KNUST

- Led a team of student developers on academic software projects, coordinating tasks, managing timelines, and ensuring quality delivery.

Presidential Advisor – Globe Club, ECO Club, Wild Life Club, Akosombo International School | *2022–2023*

- Advised club presidents on strategic decisions and led research initiatives.
- Contributed to the national Green Ghana Project promoting tree planting and environmental sustainability.

Financial Advisor – Hockey Club, Akosombo International School | *2015–2016*

- Managed the association's financial operations including budgeting, bookkeeping, and membership dues tracking.

SKILLS & TECHNOLOGIES

Programming Languages: Python, Java, C#, C++, JavaScript, HTML, CSS

Frameworks & Libraries: Django, React Native, Angular, Node.js, OpenCV

Databases & Tools: MySQL, Linux, SQL, Git & GitHub, VS Code, PyCharm

Cybersecurity: Threat Intelligence, Network Security, Risk Management, SIEM, Python Automation

Cloud Computing: Cloud Infrastructure Fundamentals (IBM)

Other: OCR, HCI Principles, Motion Detection, Game Development (Godot, Unity)

Soft Skills: Leadership, Team Building, Problem Solving, Critical Thinking, Conflict Resolution
